

Pass Hockey League Will Have Four Teams Town Council Makes Application for Extension of Town Area

Council Wants Coal Co. Plant Included in Local Taxation Area

Argument Heard By Utilities Commission on Claim of Council to Extend Taxation Area

On Friday at the court house in Calgary the town council's application to have the plant of International Coal & Coke Co. north of the river and the residence property occupied by H. V. Hummel, included within the assessment area of the town.

Mayor James Moore said the company enjoyed certain benefits of the town, such as the use of the fire department, which were paid for by Coleman taxpayers, and he argued that the company should be included in the town limits and pay taxes.

He admitted under examination by A. L. Smith that the company had given the land where the tennis courts are and some lots for a right-of-way, and that the company paid for the use of the fire department whenever it was used by it. Company officials contended they were being discriminated against, because it was proposed to extend the limits to take their plant and holdings in while other companies and properties similarly situated were left out.

Judge A. A. Carpenter, chairman and E. J. Fream, commissioner, composed the board hearing the application. C. J. Ford, K.C., appeared for the town. A. L. Smith, K.C., and R. F. Barnes were representing the company. O. E. S. Whiteside, general manager, and H. V. Hummel and C. Geo. Pattinson were also present.

Former Coleman Boy is World's Wheat and Oats Champion at Chicago Ex.

Herman Trelle of Peace River district has been adjudged winner of the sweepstakes in wheat and oats at the International Hay and Grain Show in Chicago.

It is the first time a single individual has captured both awards. Daily newspapers carry front page feature stories of the victory, giving no small share of the credit to Mrs. Trelle for her splendid assistance, who carried on the farm during her husband's prolonged stay in Keith sanatorium.

A congratulatory message to Mr. and Mrs. Trelle on their record achievement is being sent by Coleman Board of Trade.

ST. ALBAN'S CHURCH

Next Sunday, the second in Advent, Sunday school will be at 12.30. Bible class at 4 p.m. and evensong and sermon at 7 p.m.

The Rev. A. A. Lytle, representative of the British & Foreign Bible Society, will give a lantern lecture on the work of the society in the United Church on Tuesday, 8 p.m.

Many attended the special service of music in the United church on Sunday evening, when the principal singers were Mrs. S. G. Hannan of Blairmore and A. B. Murdoch of Pincher Creek. J. Emmerson as organist contributed greatly to the pleasure of the evening's program.

Every Day From Now to Christmas

Is a fresh opportunity for the alert merchant to increase his sale of Christmas goods. Aggressive newspaper advertising will do this. The buying public look on the local paper as their shopping guide. They turn to its advertising columns for helpful gift suggestions.

Leading merchants know there is no substitute for the local newspaper for stimulating the sale of Christmas merchandise. Their continued use of it is based on actual cash register returns.

Death and Funeral of Mrs. Mary Brown

The funeral service for Mary, beloved wife of Ralph Brown, was held on Saturday afternoon at St. Alban's church, the Rev. A. S. Partington, B.A., officiating. The casket was taken from the house to the church, followed by relatives and friends, and the pall-bearers were J. Davies, T. Goldring, Ernest Hill, E. X. Hill, T. Wroe and J. Poxton.

Burial took place in the cemetery, in the presence of many friends and acquaintances of the family.

Mrs. Brown had lived in Coleman nearly two years, coming from Yorkshire, Eng., her husband having been here for about a year previous. Besides her husband, those surviving are her daughter, Florence, aged nine years, and an infant baby boy four days old at the time of its mother's death.

Card of Thanks

Mr. Ralph Brown desires to thank all who sent flowers, to those who loaned cars for the funeral, and other friends for their expressions of sympathy. Also thanks are expressed to Dr. Borden, Dr. Stewart, and the hospital staff for their kind services.

HOSPITAL NOTES

The new doctor who will be assistant to Dr. Borden is Dr. De Long, who arrived this week from Calgary.

John Hatala was admitted on Saturday, suffering from a badly sprained back, caused by some heavy work in McGillivray mine.

John Denholm is as cheerful as ever, occupying No. 1 bed where he can check over everyone coming and going. He has had a long stay in hospital, but says he is being treated well, as the staff makes things as pleasant as possible, including Harry.

An extension is being made to the operating room, for use as a sterilizing room.

Powell Wears Convict Cap

Fans who have grown accustomed to seeing William Powell, Paramount star, portray suave, gentlemanly, well-dressed roles on the screen will be surprised when they see his latest starring picture, "The Shadow of the Law." During one sequence of the picture, Powell is seen without his dapper mustache, clothed in the rough, unhandsome garments of a state penitentiary convict.

The Greyhound coaches have resumed their regular schedule between here and Calgary.

Brocky Family Goes to Germany

Canadian Pacific Express men were hosts to Patsy, Mabel, Chester and Sherrie Brocky, of Badgerville, Subterranean, who spent a week in Montreal recently before sailing to Europe.

The four Brockies sailed for Hamburg on board the SS. Beaverford, October 31, and will settle in Germany, where their children will probably be used to rather the faces of customers in a tonic shaving emporia.

The badgers are good Canadians, raised in Alberta and consigned from Edmonton to Gittelde-Harz, Germany, for breeding. One and a half pounds of steak twice a day, at lunch and dinner, keep them alive and happy, and doubtless contributed to their enjoyment of the long journey on the Canadian Pacific Railway from Edmonton to Montreal. Breakfast is now quite declassified in the best badger circles.

The above photograph shows Patsy receiving the first installment of her lunch before being taken by the C.P.R. Express truck to embark on the Beaverford. "What do you want with me?" says Mabel, as she was being sketched, "I've had my lunch and feel fine, sitting pretty, in fact. Nothing more for publication, this is the end of my tale...."

President of Coal Co. Passed Away

A. C. Flumerfelt Died on Saturday and Funeral Held on Tuesday

A. C. Flumerfelt, president of International Coal & Coke Co. Ltd., died at his home city of Victoria, B.C., late on Saturday evening, aged 75 years.

A few weeks ago he was operated on and appeared to be recovering from a relapse set in, a telegram received by O. E. S. Whiteside, general manager of the company here, indicating that the end was near, followed by a message stating he had passed away.

The funeral was held on Tuesday, Mr. Whiteside leaving on Sunday morning.

Mr. Flumerfelt was a director of Consolidated Mining & Smelting Co., Ltd., The Canadian Bank of Commerce, The Trusts & Guarantee Corporation, and various other Canadian companies. He was chiefly responsible for the promotion and organization of International Coal & Coke Co. Ltd., which was incorporated in 1902 in the State of Washington, where the head office of the company was established, though its holdings were in Canada. In 1919 it was incorporated under Dominion charter, and the head office established in Coleman.

For a brief term he was provincial treasurer of the government of British Columbia. Surviving are his wife, and two daughters by a former marriage, one living in London, Eng., having a degree as a medical doctor, and one living in California.

The matinee on Monday afternoon for which the admission was one toy damaged or otherwise, for the Boy Scouts toyshop, drew a capacity house from among the children of the public schools. Manager and Mrs. Dow co-operated in making the event a success, and many a child's heart will be gladdened by an extra toy or two on Christmas morn as a result of the special effort.

No Marked Improvement in Employment Here

Despite rumors which have given the impression that work is steady and that the unemployment problem is practically solved for the present in the Crow's Nest Pass area, the facts are that there are still many men unsuccessfully seeking employment daily.

At one mine it was learned that extra men were to be taken on. Over 60 presented themselves for three vacancies, and those taken on were men who had previously worked for the company, but had been discharged through lack of work.

Soviet Russia Topic of Interesting Address

Delegate From Coalhurst Tells of Travels in Russia and Experiences There

L. McLeod of Coalhurst, addressed a public meeting on Sunday afternoon, under the auspices of the local of the Miners union, on his experiences as a delegate to an international convention held during the summer in Russia. Though it was his first public address he gave a very good review of his few weeks of travel to various parts of Soviet Russia, relating the working conditions in various industries, textile, agriculture, mining, and railway shops.

He stated that under the five-year-plan of economic expansion, the people appeared to be willing to sacrifice in order that the government may carry through its scheduled plan, and the women work on an equal status with men. He remarked on this rather adversely whilst in Russia, and was told that women work willingly in order that they too may help in trying to put Russia on an equal or even better economic basis than other countries within the five year period.

Though generally speaking the mode of living was years behind that of this continent, such things as electric washing machines and irons being almost unknown in working people's homes, yet he considered the lot of the workers as regards hours, provision against sickness and awarding of old-age pensions at 55 years of age, was in advance of other countries, and if their plan proved a success, other countries would be compelled to adopt similar measures.

17 more shopping days until Christmas.

Four Teams in Pass Hockey League—Hill Crest Out This Year

"Bill" Gate Will Have Charge of Coleman Players and Good Season Looked For

It is good news locally to know that William Gates, for many years a stalwart player, has been appointed manager of Coleman team. It will stimulate interest among the public and the players and the games will undoubtedly draw good support. A double schedule will be played, the league executive meeting last evening to arrange the dates.

Last Friday a meeting was held in the Greenhill hotel, the delegates from Coleman being W. Gates and V. Collores. Hillcrest will not enter a team in the league, as they are only playing junior, but their spare senior players will register with Bellevue. The Wright cup and Crutchbank cup will be available for competition, and the executive will arrange the for competition.

League officers elected are G. Kellock and O. E. S. Whiteside, G. A. Vissac, Noble McDonald and R. G. Allison, honorary presidents; W. H. Chappell, Jr., president; J. P. Alexander, W. R. Warn, C. J. Devine, W. W. Scott, vice-presidents; J. V. McDougall, secretary.

Rev. A. E. Larke is conducting a week's evangelistic services in the United church at Blairmore, terminating on Friday night.

Gross proceeds of the dance held on Nov. 25 were \$127.25, with an added donation of \$10 from Winnipeg and Fort Frances, total \$137.25. Expenditures for prizes and sundries were \$57.55; net proceeds given to R. C. church \$79.70. 274 tickets were sold out of 300. The prize trophies were donated by Mrs. Guerdar, who organized the dance with such splendid results.

PRESENT LOW WHEAT PRICES ONLY TEMPORARY

Toronto, Ont.—“We must find some method of inducing the buyers of wheat in Great Britain to return to their customary preference for Canadian wheat,” declared Dr. W. W. Swanson, economic adviser to Premier R. B. Bennett, at the recent Imperial Conference. “And,” he continued, “we must take precautions to see that this preference is never lost again.”

A great audience of leaders in Toronto's business and financial life listened intently to the story of the Imperial Conference and the economic problems Canada faces, as it came from Dr. Swanson, head of the department of economics in the University of Saskatchewan, and a nationally known expert on Canadian trade and commerce problems.

After reviewing all the varied matters that entered into the complex problem of Canadian trade and Imperial trade, Dr. Swanson declared the whole question so far as Canada was concerned, revolved around the market for the Dominion's wheat. The best market she could ever get was in the British Isles.

“At the present moment Canadian wheat, as always, holds the premier place in reputation and in quality in the British market,” he said. “But temporary financial depression, and momentary surplus in the market together with another influence to which I cannot refer at this point, tend to lessen the advantage which we hold, and there is no question that the immediate future depends on the willingness of the buyers of wheat in Great Britain to increase their proportion of purchases from Canada.”

Dr. Swanson made open reference, however, to the Russian dumping of grain in England. He declared, in speaking of the present position, submitted by Premier Bennett, that they would, frankly, result in an increase in the price of wheat in Britain.

“At the present time,” he explained, “wheat is selling, not at a price set by fair and open competition, but at levels to which it has been lowered by the slave labor of the Soviet republic, driven by a heartless group of fanatics who do not scruple to starve a nation in order to make a case. I believe that anxious as are the people of Britain to protect themselves from exploitation in the prices of their foodstuffs, it will be hard to find even a handful there who do not accept this view.”

Dr. Swanson declared himself a born free trader, but nevertheless, he was actively in favor of Premier Bennett's preference offer. In supporting it in London, he declared, “I conceived that I was doing more service to the ideal world of free trade than I could have accomplished in any other manner—I felt I was assisting at the mobilization of the greatest army in history for the penetration of unjust trade barriers raised by foreign powers.”

The speaker also felt it important to correct any impression that the Dominions were not ready to consider tangible alternative offers. The fact was, he said, the British Government did not make any definite alternative offers. These proposals such as the quota on wheat, the bulk purchase scheme and the idea of import boards, “were all submitted to the conference for examination and discussion. They were considered without prejudice. That none of them was found capable of immediate establishment was not owing to any unwillingness of the Dominion delegations to consider alternatives to tariff preference, but entirely owing to inability of the conference to accept any of these schemes as immediately workable.”

The present low price of wheat is simply explained by the fact that a temporary financial depression exists in all occidental countries and that a momentary surplus of wheat is available for the market. “I lay stress on the temporary nature of these conditions,” he said. “The depression affected every primary product in the world and every product of British Columbia to the lumber producers of the east.” Such a general condition could only be temporary, said the speaker. It did not represent a condition of over-production.

Dr. Swanson said he was not a politician and knew nothing of politics. “But,” he continued, “I know the needs of the farmer of the west—their distress and their high courage. For their sake and that of our beloved country I trust that their great question will be raised above the level of mere party strife.”

Imperial Conference Results

Dr. Swanson Says Premier Bennett Was the Outstanding Man at Gathering

Toronto, Ont.—Far from being a failure, the Imperial Conference “had laid the foundation for future developments of great significance, not only to the Dominion of Canada, but to the Empire,” declared Dr. E. W. Swanson, head of the department of economics of the University of Saskatchewan and economic adviser to Premier Richard B. Bennett at the Imperial Conference, when he arrived in Toronto on his way back to Saskatchewan.

That there are factors present in the wheat situation which would lift the markets to higher levels, was Dr. Swanson's opinion in respect of the present wheat crisis. He thought the effect of the 60,000,000 bushels of wheat which Russia had thrown on the British market was disproportionate to the volume, and Russia, he thought, would not tolerate a state of affairs where internal distress was being caused by the exportation of wheat at prices below production costs.

In Dr. Swanson's opinion, Canada's Premier scored a magnificent personal triumph in persuading the British Government and the governments of the other dominions to convene at Ottawa next year. Mr. Bennett, he declared, was without question the outstanding man at the conference.

Prospector Dies In North

Overcome By Cold Drops Behind Companions On Trail

Winnipeg, Man.—Another victim of the northland trail, has been claimed with the death of Ingridur Curley, a 23-year-old Danish prospector.

Carrying a heavy pack, Curley dropped behind three companions, who were musing their way from Central Manitoba Mines to Great Falls in north-eastern Manitoba. Missed when the party stopped for a noon meal, a search was immediately instituted, and far back on the trail he was found, still alive but badly frozen. A huge fire was built and first aid treatment administered but he died within a short time in his rescuers arms.

Employees Share Profits

Experiment Being Tried Out By B.C. Lumber Mill

Victoria, B.C.—Establishing a precedent that may have far-reaching influence in the lumber trade of the Northwestern Pacific area, the Sidney Lumber Company, Limited, has successfully operated its extensive mills at Sidney for three months on a strictly profit-sharing basis with 125 employees sharing the proceeds of lumber sales in strict proportion to the wages they would earn in times of prosperity. The experiment is the first of its kind to be attempted on the Northwest Pacific Coast.

Load Poultry Cars

Regina, Sask.—Cars will be placed at 91 points throughout Saskatchewan for the loading of dressed poultry, it was announced by D. Graham, secretary of the Saskatchewan Co-Operative Egg and Poultry Producers' Union.

The speaker also felt it important to correct any impression that the Dominions were not ready to consider tangible alternative offers. The fact was, he said, the British Government did not make any definite alternative offers. These proposals such as the quota on wheat, the bulk purchase scheme and the idea of import boards, “were all submitted to the conference for examination and discussion. They were considered without prejudice. That none of them was found capable of immediate establishment was not owing to any unwillingness of the Dominion delegations to consider alternatives to tariff preference, but entirely owing to inability of the conference to accept any of these schemes as immediately workable.”

The present low price of wheat is simply explained by the fact that a temporary financial depression exists in all occidental countries and that a momentary surplus of wheat is available for the market. “I lay stress on the temporary nature of these conditions,” he said. “The depression affected every primary product in the world and every product of British Columbia to the lumber producers of the east.” Such a general condition could only be temporary, said the speaker. It did not represent a condition of over-production.

Dr. Swanson said he was not a politician and knew nothing of politics. “But,” he continued, “I know the needs of the farmer of the west—their distress and their high courage. For their sake and that of our beloved country I trust that their great question will be raised above the level of mere party strife.”

Dr. Swanson said he was not a politician and knew nothing of politics. “But,” he continued, “I know the needs of the farmer of the west—their distress and their high courage. For their sake and that of our beloved country I trust that their great question will be raised above the level of mere party strife.”

Request New Type Cars

Canadian Livestock Unions Want Movable Partitions In Stock Cars

Ottawa, Ont.—Application of the Canadian Livestock unions seeking the equipping of railway cattle cars with two or more movable partitions will be heard by the Railway Commission on December 5.

Heavy monetary loss is sustained by cattle owners owing to bruising, broken limbs and even suffocation, cattle suffer during shipment in the type of cars at present in use. By the use of movable partitions, the applicants hold, injury to shipments would be reduced to a minimum and mixed carlots of livestock would be possible.

Eskimo Marooned On Ice

Used Rifle Stock To Paddle Way To Safety

Point Barrow, Alaska.—Marooned on a small island of ice while attempting a polar bear, Joe, an Eskimo, fashioned a rough raft from the ice and used a rifle stock as a paddle to make his way to safety in a 42-hour battle, finally reaching shore ice near here. He was exhausted, hungry, and with frost-bitten fingers. While he was on the ice, temperatures ranged from 20 to 30 degrees below zero.

SAFETY CLAUSE IS ADOPTED AT GENEVA MEETING

Geneva, Switzerland.—A “safety clause” permitting a country threatened by attack to lay aside the restrictions of the general disarmament treaty, was adopted by the preparatory disarmament commission.

The clause was proposed by Hugh S. Gibson, United States representative, who explained that while the United States was willing to accept the rigid rules binding the nations to the treaty it was ready to consider the fears of other nations. The only opposition to the clause came from Russia, which declared it unacceptable to the Soviets who are convinced the treaty ought to be absolutely binding on the states under all circumstances.

It was generally understood the clause was designed to quiet the fears of some of Russia's neighbors. It envisages a situation in which a country is threatened by attack and regards it as essential for self preservation to lay aside the treaty restrictions and have full liberty to arm itself.

The clause provides that a state in invoking the “safety clause” shall first notify other parties to the convention and the permanent commission of its intention, fully explaining the circumstances.

The commission also decided that administration of the prospective treaty shall be placed in the hands of a permanent disarmament body with its seat at Geneva.

The composition of the permanent body was left for the general conference to decide. A sub-committee presenting the proposal was unable to agree upon the body's composition. Great Britain, the United States, France, Italy and Japan wished to have its membership restricted, while China, Turkey and Finland held out for each party to the convention to have a seat in the permanent commission.

LUCKY LADS

Provincial winners of the annual Canadian Pacific Railway Swine Club Contest, photographed with C. W. Atkin, assistant general agricultural agent of the Canadian Pacific, and their trophies prior to their departure for a free excursion to the Royal Winter Fair at Toronto, where they stayed at the Royal York Hotel as guests of the company. From left to right, are: George Invernarity and J. R. Christison, of Carberry, Manitoba winners; Miles Glazier, Mr. Atkin, and Leslie Smith, of Wynand, Saskatchewan winners; Frank Shyako and William Strynaka, of Willingdon, Alberta winners; and Hilbert de Louw, of Kamloops, a member of the British Columbia club.

BRILLIANT MILITARY CAREER

Major-General V. A. S. Williams, who was honored by being made honorary life member of the Royal Canadian Mounted Police Veterans' Association. Major-General Williams served as a very young man in the frontier forces in the North West Territories at the commencement of his brilliant military career.

Diversified Farming

Says Western Farmer Should Not Put All Eggs In One Basket

Toronto, Ont.—In depending for their livelihood on wheat alone, Western Canada farmers are “putting all their eggs in one basket,” declared G. I. Christie, president of the Ontario Agricultural College, Guelph, addressing the Canadian Independent Telephone Association here, Tuesday, Nov. 26, at its annual convention.

“Low price grain does not spell ruin to the farmers, for in a country where you can grow grain you can raise livestock,” said Dr. Christie. Canada, he added, had a great chance to break into the bacon markets, which are now being virtually monopolized by the Danes.

Canadian Pictures For Britain

Collection Of Scenes To Be Sent To Royal Photographic Society

Saskatoon, Sask.—Dr. L. G. Saunders, professor of biology at the university here, has been selected as one of the ten Canadian pictorial photographers to contribute to a collection of Canadian pictures. The collection is under the organization of the Royal Photographic Society of England. Dr. Saunders has done a great deal of work for the Federal Government in Prince Albert National Park and has made an intricate survey of the fishing waters of the park.

May Pay Old Staff

Ottawa, Ont.—When consideration is being given the matter of adding five years' service to the superannuation of staff members of the Department of the Interior who face retirement following transfer to the prairie provinces of their natural resources. While the resources were under control of the Ottawa Government work in this connection fell to the Federal department.

Killed By Gun Trap

Beausejour, Man.—Rene Lusier, Lac Du Bonnet woodcutter, put his foot in a gun trap while wading through frozen bush country near here and died almost instantly. When his foot struck a wire connecting the trap, a gun report rang out and Lusier's companion carried the bleeding body to a nearby homestead.

May Try Atlantic Trip

Flight Of DO-X This Winter Still Being Considered

Lisbon, Portugal.—The giant flying boat Dornier DO-X, reached Lisbon, Nov. 26.

Dr. Claude Dornier and Mrs. Dornier disembarked from the DO-X at Coruna, Spain, and left for Madrid to go to Paris and Berlin.

The explanation given in Coruna was that the builder of the DO-X wanted to be present at the opening of the International Aircraft Show in Paris. The little sister of the DO-X known as the DO-8 is one of the most interesting exhibits there.

Unofficially it was learned from Coruna that the trans-Atlantic flight has not been abandoned but officially no expression was obtainable. That the flight will not start before the end of the year seems certain.

Such Portuguese seafaring authorities as Admiral Cagoe Coutinho, who was first to cross the South Atlantic ocean by air, are of the opinion that the Azores-Bermuda route is wholly out of question for the present winter, but that the DO-X can readily make the Canary Islands, Cape Verde Islands and the Brazilian Coast route to New York.

Reduced Rates On Coal

Government Contemplating Further Extension Of Low Rate On Alberta Coal

Ottawa, Ont.—While no official announcement has been made it is learned on good authority that the government has under consideration a further extension of the reduced freight rate on Alberta coal moving into the central markets of Canada. The rate of \$6.75 a ton on such coal shipments was extended until the spring of 1932 and now the advisability of making a further extension is being taken up. Under the arrangement the government makes good the amount which the railways are out of pocket on shipments from the west to the central markets at the reduced rate.

MOVE IS MADE FOR REDUCTION OF FLOUR PRICES

Ottawa, Ont.—Important developments in the Dominion Government's campaign for lower bread prices are anticipated at an early date unless the price of flour is reduced. Hon. Gideon D. Robertson, Minister of Labor, has been investigating the prices of bread and flour for the past four months with the assistance of the staff of the combines investigation branch and the investigators have now reached the stage where action of one sort or another is impending.

Following suggestions thrown out by the minister some months ago the price of bread was reduced by about 20 per cent, or a little more than two cents a loaf on the average over the whole of Canada. The price of flour, however, did not come down and the opinion was expressed at the department of labor that the next step must come from the milling companies.

Senator Robertson laid the results of his investigations before the cabinet meeting and afterwards announced he was calling a number of leading millers into consultation to see if something could not be done to lower the price of flour. With wheat now at about 60 cents a bushel flour is selling at approximately the same price as when wheat was \$1 a bushel.

Should an investigation under the Combines Investigation Act be ordered it would be the most extensive inquiry of the kind ever held in Canada. Owing to the wide ramifications of the milling and baking industries the inquiry would have to be nationwide in scope. For this reason it would take considerable time.

In order to secure prompt results and to avoid embarrassing any industry the government prefers to enlist the co-operation of the interests concerned. Should this prove effective as it did in the case of the baking concerns no action would be taken. Should it fail, however, the information and machinery necessary to setting an investigation under way at short notice is in readiness.

Many complaints in connection with the price of bread have been received by the government and through quiet but vigorous investigation a mass of authoritative information has been accumulated. The government is fully aware of the importance of keeping bread prices down to a minimum. The daily consumption of bread in Canada runs at about 3,000,000 loaves and a reduction of only one cent a loaf would mean an immense saving to the Canadian people.

STABILIZATION OF PRICES ASKED BY FARM PARTY

Saskatoon, Sask.—Organized agriculture of Ontario and the prairies have asked unanimously for government stabilization of prices on a production cost basis.

As the two-day interprovincial agrarian party came to a close, a resolution was approved favoring “pegging” of prices at a level insuring fair exchange of agricultural products and of other goods and services.

The resolution, most far-reaching placed before the in camera conference, does not restrict its price-fixing proposal to agricultural goods. It favors a general probe to determine the relation between farmers' production cost and the cost of other goods and services, and establishment of a Dominion Government “bureau of standards” for manufactured products.

The resolution is more embracing than either of the price fixing attitudes expressed by United Farmers of Canada, Saskatchewan section, or United Farmers of Alberta in recent deputations to Ottawa officials. Both the Alberta and the Saskatchewan body favored a price equal to \$1.00 per bushel at shipping point for No. 1 Northern wheat, but no stand had been taken to seek control of the standards and prices of manufactured goods. United Farmers of Manitoba have not previously gone farther than to support the prairie premiers' efforts to gain stabilized grain prices.

“Agricultural products are today standardized under grading regulations,” it was mentioned in regard to the standards bureau, which was calculated to be of assistance in the production cost probe. “Similar grading or standardization of other products is a necessary step toward determining relative values for the purpose of exchange.”

Allied in support of the resolution were delegates from United Farmers of Alberta, Manitoba and Alberta; of United Farmers of Canada, Saskatchewan section, and of the Canadian council of agriculture.

Faith In Saskatchewan

Optimistic Forecast Is Made By Hon. C. W. Buckle

Toronto, Ont.—Optimistic forecasts as to Saskatchewan's future reaction to the current depression were made by Hon. W. C. Buckle, Saskatchewan Minister of Agriculture, at the luncheon at the Royal Winter Fair. Mr. Buckle said although the province appeared to have been hit hardest by 1930 crop conditions, it will pull through successfully.

Mr. Buckle stated that 20,000 acres of farm land suffered a total crop failure, and that \$1,500,000 were being spent on rural farm relief.

Will Drill For Gas

Regina, Sask.—The C. Moore interests will start drilling for gas in Saskatchewan at once, if the franchise which has been granted by the city council is ratified by the ratepayers. It was announced at a banquet given by the Regina Oil and Gas Company here, Ald. Chas. Gardiner was chairman of the meeting which was attended by about 25 business men of the city.

Silk Mill For Coast

Vancouver, B.C.—Erection of a silk mill at Port Moody, 15 miles east of Vancouver, costing approximately \$250,000, is under consideration by the Western Canadian Silks, Limited. The factory will give employment to 100 persons, and the raw material will be imported from Japan and China.

Epidemic Of Numps

Ottawa, Ont.—The alarming total of 362 Ottawa cases of numps reported. Despite the fact the large number of cases has been reported since November 1, R. J. Smith, secretary of the civic health board, declared that the diseases is of a mild nature. A 21-day quarantine is made compulsory in each case.

School For Pilots

London, England.—A scheme to establish an Imperial School of Air Pilots for training and testing future professional pilots, is being submitted to the British Air Ministry by a special parliamentary sub-committee.

Colonel Starnes Re-Elected

Ottawa, Ont.—Colonel Cyril Starnes, the veteran commissioner of the Royal Canadian Mounted Police, has been re-elected chairman of the St. John Ambulance Association.

NOTES AND COMMENTS

Man is conceited in his own imagination. We have progressed a great distance beyond the savage state, yet nine-tenths of our nature is still of that type, the other tenth being the veneer of civilization and culture.

The law of tooth and nail in a softened form prevails in an economic sense. Despite attempts made under guise of co-operation and reciprocity, everyone is looking out for number one. It is the general policy of individuals, and of the governments which represent them, which cannot be any better than the people.

Russia under her five-year-plan of economic expansion is making economic war to impose her system on other countries. If it succeeds, we are plainly told that other countries must pattern their methods on the Russian plan of production. It is of no use disguising the fact that despite this being a gigantic experiment, Russia must have leaders of forceful imagination and determination to enthuse the people to such an extent that they will sacrifice in order to make the plan successful. The outcome will be of great concern to all other countries.

A man is foolish to say the Russian method is not practicable. World conditions have changed vastly since pre-war days. Our grain in Canada will not sell for sufficient to pay the cost of production, thousands are unemployed, and yet people will lightly remark, that things will come alright eventually. The only way they will come alright is by the will of the people, and a change in our present economic system will be made from necessity. A hundred years from now our present-day methods of distribution of the product of labor, which means wealth, may appear as primitive as do some of the methods of the primitive peoples we today read of.

The child of to-day takes no more notice of an aeroplane than we did of the horse in our young days. The wonders of radio are accepted as quite the usual thing. In fifty years wonderful strides have been made. But no such progress in the field of distribution of the profits of labor has been made, hence present day economic problems, a solution of which must be made if all classes are to enjoy happiness and earn sufficient to secure it.

Selfishness, conceit and lack of consideration for one's fellow citizens may profit individuals pursuing such a course, but there eventually comes a day of reckoning, for it is an immutable law that we all have measured out to us just about what we deserve. The law of compensation is ever at work, and yet some are so foolish as to believe they are immune. It follows as surely as night follows day. It is a universal law.

The Christmas season advances rapidly. There may yet be a few Scrooges who see no occasion for happiness, but the great majority will seize the opportunity to spread good cheer and fellowship. It matters not what the trials of the year may have been, the kindnesses displayed towards each other help to make them appear small. Trouble and illfeeling is almost entirely of man's making through inhumanity towards each other, for the Christmas season demonstrates how the mind governs our actions. Though it provokes goodwill, it is unfortunate that there are some who forget about it next day and start out on the same inhuman line of conduct which they will not cast aside.

After spending nearly two hours trying to sell a quarter page of advertising, we came back with the net result of having sold a dollar's worth of space and having spent one dollar. Net result a dollar's worth of goods for a like amount of advertising. No money changed hands, but we did business just the same. We had to sit down and chuckle to ourselves. One chap said he had nothing to advertise, and wouldn't even advertise the business for sale. Things were "tough," he said, and he couldn't see the silver lining beyond the cloud. Maybe there isn't any—for him.

In the meantime the mails carry their usual consignments of mail order house catalogues. There is business being done, but unfortunately not here in any volume, for the outside fellows are awfully aggressive, and that's what gets business.

Now why not shake off that gloomy feeling?—take a brighter mental slant and at least make an honest-to-goodness effort to put a little pep and enthusiasm into Christmas business. Enthusiasm is contagious.

Herman Trelle, a former Colemanite, again secures a world's championship in grain. Here is a man who last year was a patient in a sanatorium, fighting tuberculosis, always maintaining a cheerful outlook and a determination to conquer. He recovered his health sufficiently to again

produce a world's championship sample of grain. Hats off to Mr. Trelle, of whom Coleman schools have reason to be proud, seeing that he received his early schooling here.

Here and There

(652)
Impressed with Canada's selling ability, Lord Stonehaven, former Governor-General of Australia, interviewed at Winnipeg, recently after a tour of Canada by Canadian Pacific Railway, urged that the Dominion do everything in its power to encourage inter-empire trade and specially of such articles which are particularly the products of one another, citing citrus fruits of Australia as an example of worth-while imports from Canada.

Winners of dual grand championships at Chicago and Toronto fairs, two fine Clydesdale stallions from Saskatchewan, "Sanzovino" and "Lochivar," are showing at the Royal Winter Fair in Toronto, November 19-27. Large experimental farms in the West, including the Prince of Wales "E.P." ranch, are also well represented in the entry lists.

Cultured, educated women, taught by tutors whom they shared with their brothers, existed in China prior to the 13th century and before the western world had attained any high degree of civilization. Dr. T. Catherine Woo, principal of the St. Paul's Girls College School, Oxford, declared when interviewed on board S.S. Empress of Asia recently. She broadcast a message to women of all countries, stating that Chinese women are no less intellectual than their European sisters, if given a chance to learn.

It is expected that the improved ship channel in the River St. Lawrence as far as Montreal, giving a 45-foot depth for ocean liners, will be completed by 1934. This will enable liners of 25,000 tons gross to reach Montreal, 1,000 miles from the Atlantic, the largest inland port in the world.

According to the president of the Radio Manufacturing Association of Canada, the per capita expenditure in the Dominion on radio sets is the highest in the world. In 1929 Canadians spent over \$50,000,000 on radios and equipment.

Sugared strawberries from British Columbia put up in cans found a ready market this year. About 100,000 pounds were bought by American interests and large quantities were bought in Eastern Canada. It returned about seven cents a pound to the grower.

Nine years ago, Mrs. W. A. Freeman, of Ardmore, Alberta, a native of Wisconsin, won a pair of bronze turkeys in a raffle. To-day she has the largest turkey ranch in Canada and the acknowledged queen of turkey raising in the Dominion. Her turkeys will return a revenue of \$10,000 this year.

Coming for the first time to Saskatchewan, the Western Canada Fur Show will be held December 2-6 at Saskatoon. At Winnipeg last year more than 200 fozes from as far as Prince Edward Island, were shown. Even greater interest is expected in this year's Show.

Directors of the Co-operative Wholesale Society of Great Britain who recently concluded a tour of Canada have expressed themselves as greatly interested in the World's Grain Show to be held at Regina in 1932 and have indicated that in all probability they will visit the Exhibition and Conference at that time.

Angus Hodgson, well known Montreal big game hunter, has written that city Banff and the Canadian Rockies, reports that he shot one moose, one elk, one black bear, two deer and two Rocky Mountain goats. He almost added a grizzly to this total which however, got away after a six day chase. "Why on earth more Canadians do not go to Banff for their hunting beats me," Mr. Hodgson declared, adding that cost was reasonable and big game abounded there.

Unveiling of the memorial to Eliza Carman, noted Canadian poet, took place at Fredericton recently and was broadcast all over the Dominion by Canadian Pacific radio network. Sir George Foster, well known Canadian statesman, spoke, expressing the sentiments of all Canadians in regretting the loss of the great national bard.

A French-Canadian wedding of a hundred years ago was one of the high lights of Quebec's third Folk Dance, Folk Song and Handicrafts Festival which was given at the Chateau Frontenac in that City October 18-19. Bands of Old and New France and of the Metis from the prairie provinces were among the other features of the festival which was conceded to have been the most successful of the many produced under the auspices of the Canadian Pacific Railway.

The Nova Scotia apple crop from the Annapolis Valley is now valued at \$3,000,000 and the significance of this figure will be realized when it is recalled that the return from last year's crop was approximately \$1,000,000. Growers affirm there never was a better year in the history of the industry than the present.

Where the Title becomes good on the First Payment

THIS is an age of installment buying. Furniture, homes, motors—even clothing—is being bought on time. If income stops for any reason and funds are insufficient to meet payments, the home or motor or furniture is forfeited, and the money already paid is lost. Life insurance is merely buying an estate on a yearly payment plan.

BUT... Life insurance is the only form of property upon which unpaid balances are cancelled by death, and the property transferred, unencumbered, to the heirs.

Chain Stores vs.

Independent Stores

(Continued from Last Week)
(By G. F. Bouchat)

By shortweight I mean selling 14 ounces to the pound on hundreds of articles advertised at 50bers prices and packaged in the stores. These embrace sugar, coffee, potatoes, rice, beans—all bulk goods. When brought up in court under the weights and measures act, their local managers excuse themselves with the plea that it is impossible to control the shrinkage of goods put up in bulk packages, while it is in storage or upon the shelves of their various stores.

Here it might be well to mention that 25 cent packages of chain store potatoes are yielding quotas of cobblestones greatly resembling Irish potatoes.

In their meat departments they sell fresh meats of the poorest quality at little less than packers' cost of choice meat. A veritable killing is being made on fresh meats by these stores. This is the original double cross. Pot roast is advertised at 15 cents, but they have pot roast at 21 cents also. A customer asks, "How much does that piece cost?" The meat clerk consults the computing scale at 21 cents per pound and says, "Only \$1.05."

If the customer weighs it elsewhere and complains, the meat clerk says, "I gave you our 21 cent pot roast and there is exactly 5 pounds in this roast. Did you wish our 15 cent roast? Very well, that will be 75 cents."

There is no difference in the quality of the meat. It is the lowest grade he had—old blue cows—old tough stags—anything that looks like beef. The same shoddy game is played with pork, shoulders, hams. A ham is cut in such a way as to make a customer pay a big price for the shank which is often sold at a loss by independent meat dealers.

On the Pacific coast I recently had the opportunity of investigating their egg swindle. Here is the way it is worked. They are given first call on candied out eggs—cracked, spotted and stale eggs. A few cases of No. 1 eggs are on hand. The advertisements look attractive—eggs are 5 cents cheaper in these stores. The trained clerks accidentally delivers the "culis." If he is discovered he is ready with "I beg your pardon, I gave you the wrong eggs. It was a mistake."

One customer in a hundred discovers the fraud, and one in a thousand returns the eggs, because they are broken before discovery is possible.

Is this the way your local merchants have been serving you all of these years? You know they haven't. They may have made the occasional mistake, for none of us are infallible, but if given the opportunity they have always been more than pleased to rectify it. Mistakes like those enumerated here may occur once in a while, but not dozens of times every day in the year.

Is it any wonder that I am opposed to these Wall Street octopuses? Is it any wonder that I am trying to educate the public to the multiplicity of shady schemes employed by these foreign owned chain store marauders, to fill their purses at our expense. And please don't forget that not one of my statements have ever been contradicted.

If these foreign owned chain stores had actually reduced the cost of living—if they were the blessing they are supposed to be, not a voice would be raised. But so much harsh criticism has been offered that the National Chain Store Association has recently appropriated \$250,000.00 for publicity. They have set aside a quarter million of their ill-gotten gains for propaganda. To influence the press—to bottle up the truth and keep the people in the dark.

Old-Time Yuletide Glories Return

One hundred years ago the Lord of the old Papineau Seigneur, at Montebello celebrated Christmas in the good old-fashioned way, surrounded by his family and dependents through a series of festivities lasting several days. The Yule-log crackled in the great fireplace; the merry voices of men and maidens rang through the great halls of the manor house; carols, so old that the origin of some of them was even then untraceable, were sung; bright garlands of evergreen decorated the apartments and corridors and—in a word—Christmas was King. Then, for a century, the song of the minstrels and the laughter of the guests was hushed and only the falling snow told the historic seat of the Papineaus of the advent of the Christmas season. This year, however, Lucerne-in-Quebec has stretched its magic wand over the historic site and the ancient glories are to be revived, on a scale which will outlive all their predecessors. With the Log Chateau as headquarters, 88,000 acres of beautiful countryside will be thrown open to visitors to the unique hotel. Bob-sledding on one of the longest

runs on the continent; ski-ing; ski-joring; ski-jumping; skating; snowshoeing and dog-sled drives will be offered to the devotees of winter sports, while the most complete comforts and appointments of up-to-date hotel-keeping; good food and bright entertainment will await the guests at close of day. Among the special features arranged for the Christmas festivities are the rendering of carols by The Children of His Majesty's Savoy Chapel Choir (London, Eng.); old-time songs by Charles Goulet's troupe of French-Canadian artists and the interpretation of Tudor dances by experts from the Margaret Eaton School of Dancing. Thus, once again, will the old walls of the historic mansion hear the strains which roused them to Christmas celebration a century ago, and before that, Lucerne-in-Quebec is ideally situated, on the northern bank of the Ottawa River, about half way between the Canadian Capital and Montreal, and only an overnight run from the great cities of the Eastern United States.

Don't Be Fooled!

Your Signature Has Value Consider !!

If you put your name on a petition, it means you have considered carefully what you have signed.

IS IT YOUR TRUE AND CONSIDERED OPINION THAT THE PRESENT LIQUOR ACT SHOULD BE MUTILATED?

Think what it would mean to abolish hotel beer rooms and club licenses. It would open the door to bootleggers and "blind pigs." Alberta today is law-abiding. Don't bring back the disregard of law as it was in prohibition days.

THINK TWICE!

DON'T SIGN !!

Leave the Act alone. We don't want the bootlegger back again

WORLD HAPPENINGS
BRIEFLY TOLD

The ban on importation to Canada of love birds, parrots, parakeets and cockatoos has been removed.

The alarming total of 362 Ottawas are suffering from mumps, of a mild nature, it was revealed by the health board.

On a 76-acre tract recently seized at Singapore, Straits Settlements, has been found a large amount of high-grade sand for glass making.

Charles S. MacDonald, president and general manager of Confederation Life Association, has been elected a director of Barclay's Bank of Canada.

Lord Byng, commissioner of the Metropolitan police and formerly Canada's governor-general, denied he would resign as head of the police through ill health.

Scoring his initial victory in Canada, Lieut. Col. I. G. M. Macnab, of the Hungarian army team, won the military touch-and-out stakes at the Royal Winter Fair horse show.

The British government, by way of a subsidy, will help the British Broadcasting Company in putting on the air 60 grand opera performances a year in England.

Captain Edward Symonds, the noted yachtsman who had charge of "Shamrock I," "Shamrock IV," and "Westward," died recently at Brightlinges, England.

Trade and commerce between nations should be carried on in the same way as business between individuals, in the opinion of Hon. T. D. Pattullo, leader of the opposition in the British Columbia legislature.

The text of the Consumers' Council bill to be introduced in the British parliament reveals that the proposed body will be empowered to investigate prices of clothing, fuels and any other articles of common use.

New Map Of Canada

Gives Comprehensive Idea Of Location Of Outstanding Resources

A new map of Canada in colors on a scale of one hundred miles to the inch, that indicates the country's resources, main railways, forests and agricultural areas, has been issued by the National Development Bureau, Department of the Interior at Ottawa.

The map affords a comprehensive idea of the location of Canada's mines; water power, developed and undeveloped, fisheries, various types of farming, and other outstanding resources. It is of such convenient size as to be suitable for ready reference, and should prove of value to educationalists, business men, and, in fact, to all who are connected with, or interested in the development of Canada's resources.

Copies of the map may be obtained free of charge by adults from the aforementioned bureau.

Another Scientific Feat

Hair Transplanted To Watch Crystal Keeps On Growing

British scientists have succeeded in growing hair on a watch crystal. This has been accomplished at the Leeds headquarters of the Wool Industries Research Association. A woman scientist takes tiny grafts of a guinea-pig's skin, transplants them to the surface of an inverted watch crystal and feeds them with blood plasma and a special extract to nourish the roots. The hair keeps on growing, and in many cases has doubled and in some instances trebled its length. The experiment is one of a long series that the association has been conducting to find out why hair and wool grows, and how it can be made to grow faster and thicker.

Boil up a few potato peelings with a little water for a few minutes in a new frying pan. Food cooked afterward in it will not stick.

Chief: "Don't you know what time work starts here?"

Clerk: "No, when I arrive the others are always at work."—Hummel, Hamburg.

Will Award Scholarship

Every Province in Canada Represented in Boys' and Girls' Grain Judging Competition

Scholarships valued from \$300 up to \$700, were decided upon as prizes to the five students standing highest in the junior grain judging competition to be held in connection with the World's Grain Exhibition and Conference at Regina in 1932. At a meeting of the boys' and girls' judging competition committee held under the chairmanship of C. M. Hamilton, at Toronto.

Originally it was intended to offer a trophy valued at \$2,500 to the team entered in the inter-college section of these competitions securing highest standing. While it is still proposed to offer a trophy in this section, it is intended to offer as awards to students securing highest placings scholarships for post-graduate work in the value of \$300, \$400, \$500, \$600, and \$700.

Every province of Canada is now represented on this boys' and girls' grain judging competition committee. At the meeting in Toronto, the personnel of the committee was enlarged to include the deputy minister of each province in addition to the official who, in each province, has charge of boys' and girls' club work or extension department.

904

THE PANELED FRONT — HIP POCKETS

Don't you love it? Of course you do.

Note the extreme tight hipline with waistline softened by partial crushed grille that ties in youthful bow at the back.

The front panel of the bodice extending into the front skirt, creates a decidedly slimming effect.

To make it! The back is one length of material. The front is in three sections. The left and right bodice sections are joined to the front panel and skirt-section (which cuts in one piece). The front and back are now joined at the sides and shoulders. The grille is attached at either side of the front at perforations.

Style No. 904 is designed in sizes 36, 38, 40, 42, 44 and 46 inches bust. Men's cotton shirt fabrics are especially smart and practical. Cotton broadcloth prints and plain broadcloth in pastel shades are sturdy.

Printed dimity, printed lawns, rayon novelties, plique and tiny ginghams are suitable for this pretty apron frock.

Size 36 requires 3 yards 4 1/2-inch and 7 1/2 yards binding.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Hedging As a Business Practice

Short Selling Of Grain Merely An Act Of Business Judgment

The October Bulletin of the National City Bank of New York gives a clear-cut explanation of hedging operations. The article reads, in part:—

"Recently excitement has been created by reports that the Russian authorities had been selling short on the Chicago market, and thus aggregating something over 7,000,000 bushels are said to have been traced.

"Everybody seems to have forgotten that only a few weeks ago charges were made that the Canadians were selling short on the Chicago market. The truth about it all is that Chicago is the greatest hedging market for wheat in the world. Traders, dealers, millers of all countries use it to hedge their regular business transactions because it leads in volume of trading.

"It has been said, as conclusive evidence of irregularity in the Russian transactions, that it would be wholly impracticable to deliver Russian wheat in Chicago. Hedging operations on the Chicago market seldom contemplate the shipment of wheat to Chicago, but are usually covered by local purchases. A miller who has bought wheat for conversion into flour may sell an equal amount of wheat for future delivery in Chicago, but without expecting to ship wheat to Chicago. He is protected in the manufacture of flour by the fact that if wheat declines in the meantime he probably will gain enough on the short sale to enable him to write down the cost of the flour and so meet the terms of a competitor who has bought wheat later than himself.

"Elevator companies, buying grain at scores of railroad stations, hedge their purchases by corresponding sales on the Chicago market, but may not send any of their purchases to Chicago. They may sell the grain to mills in different parts of this country, or may send it direct to Gulf ports or by the lakes to Buffalo and the seaboard, distributing it as they are able to do advantageously, but cancelling their hedges as they do so. Cancellation is effected by buying offsetting contracts, sales and purchases washing each other out in the settlements.

"A buyer of wheat in Canada or Argentina, who does not yet know whether he will sell in Liverpool, Amsterdam or Genoa, may make a hedge sale on the Chicago market for protection against fluctuations. He can negotiate for the disposition of his Argentine purchases. When he has done this he will close out the hedge operation in Chicago by buying against his previous sale. He aims to eliminate the risk of fluctuations, but save a dealer's profit.

"It should be understood that every contract is a bona fide and legal contract for delivery at a fixed date, and must be met at maturity, but obviously a contract to sell requires that the seller is already in a position to make the delivery he will have to acquire the commodity by the date named. Hence every sale such as the Russian government is said to have made imposes the necessity of finally making a corresponding purchase in this country. Every short sale requires a purchase, and although a sale and purchase of equal quantities of a given commodity at different dates may not exert precisely the same influence upon the market, there is no way of knowing in advance whether the sale or the purchase will count most heavily. Short selling like any contract engagement is an act of business judgment. Since sales and purchases are being made by many persons and forms a continuous stream of business there is no reason for doubting that on the whole they practically offset and cancel each other. On the whole they are beneficial to producers as broadening the market."

Yields Deep Purple Apples

Tree Near Niagara, Ontario, Is Twice As Old As Dominion

From a tree twice as old as the Dominion of Canada, J. C. Frell, of Niagara township, Ontario, has picked apples of deep purple color, and of very good quality, known as the "black chief."

The tree is over 120 years old, and was a veteran when Confederation was signed 63 years ago. The seed was brought to Canada from the Old Country by sailing vessel. Measured on an average, the fruit had a circumference of 12 1/2 inches.

The term "sand paper" is a misnomer as abrasive papers are not made from sand. The natural abrasives are corundum, emery, garnet, quartz or flint, and for some purposes pumice powder. Current abrasives include silicon, carbide, fused alumina, and some of the hard rouges.

Colored anti-glare street pavement is being laid in England.

WILL SHARE IN VAST ESTATE

Mrs. Flora Whitney Miller, daughter of Mrs. Gertrude Vanderbilt Whitney, sculptress wife of late Harry Payne Whitney, coarsus of America's sportsmen, who will share in \$200,000,000 estate.—Copyright, Pacific and Atlantic Photos, Inc.

Canadian Poultry To Japan

Consignment Of Selected Birds From British Columbia For Imperial Farms in Japan

The Emperor of Japan is among the recent new customers for British Columbia pure-bred poultry. A consignment of selected birds, which sold for \$4,500, from some of the best poultry farms in British Columbia, is now on its way to the Imperial farms in Japan. The birds will be used as foundation stock for breeding.

Each of the hens in the consignment has a record of 300 eggs per year or over. Included in the shipment are a son and five sisters of "Maize," or Hen No. 6, who held the record in 1927 as the world's champion egg layer, with 331 eggs in 354 days. This White Leghorn was one of the chief attractions at the World's Poultry Congress held in Ottawa in August, 1927. White Leghorns, Rhode Island Reds and Barred Rocks are the principal breeds in the consignment bought by the Emperor of Japan. Several large orders for Japanese poultry raisers have been filled by British Columbia breeders in recent years.

Will Use Canadian Coal

Manitoba Government institutions will use Canadian coal this winter and tenders for 30,000 tons will be awarded shortly.

SUNDAY SCHOOL LESSON

DECEMBER 7

STEPHEN—AN EARLY INTERPRETER OF CHRISTIANITY

Golden Text: "They chose Stephen, a man full of faith and of the Holy Spirit."—Acts 6:5.

Lesson: Acts 6:1 to 7:60.

Devotional Reading: Isaiah 53:7-12.

Explanations and Comments

Stephen the Deacon, Acts 6:5-6. Stephen was a man of special gifts, full of faith and of the Holy Spirit, the most prominent one of the seven deacons appointed to help the work of the early church. In addition to his task of caring for the poor, he undertook evangelistic work, and preached with great power and success, and wrought wonders and miracles among the people. The number of disciples in Jerusalem increased remarkably, and even included numbers of priests.

Stephen and his associates, Acts 6:9-15.—Stephen became a special object of hatred to the Hellenistic (Greek-speaking) Jews, and they sought to compass his death. Among them were the Libertines, probably Jews or their descendants who had been taken to Italy by Pompey as slaves, but afterwards received their freedom and were allotted a section in Rome for their residence: men of Cyrene and Alexandria in northern Africa; and men of Cilicia and Asia, provinces of Asia Minor. These men disputed with Stephen, but not being able to cope with the wisdom and the Spirit by which he spoke, they induced men to declare that they had heard him speak blasphemous words against Moses and against God.

After stirring up the people and the Pharisees, the elders and the scribes, his enemies seized Stephen and brought him before the Sanhedrin, or Council. The false witnesses declared that Stephen continually spoke "against this holy place and the law," and declared that Jesus would destroy the temple (the probably repeated words of Jesus recorded in John 2:19).

And all that sat in the council, fastening their eyes on him, saw his face as it had been the face of an angel. What was it they saw? "Certainly not some visible aureole or halo such as artists love to paint around the heads of saints. I think it was rather that unearthly beauty we have often surprised on faces we love that strange, divine luminosity like a foregleam of a coming and eternal glory." His thoughts were filled with the words of God of glory, and Tennyson has truthfully expressed the source of that divine radiance:

Looking upward, full of grace,
He prayed and from a happy place
God's glory smote him on the face.

First Apple Steamer

The first steamer to carry apples direct from Annapolis Royal, Nova Scotia, to London, England, was the "Neptune," which sailed on April 2, 1881. The shipment consisted of 6,800 barrels, and arrived in London in 14 days. This venture was fairly successful, and from that time the business has continued to increase in volume.

Radio Used In Crime Detection

Winnipeg is the first city in Canada to equip its police department with radio telephone transmitters to work exclusively in the detection of crime.

Bread cut into slices of any desired thickness and wrapped in paper by machinery, is possible by a new device in London.

Guardians Of
The Pacific

Japanese Statesman Says British Commonwealth, United States, and Japan Must Co-operate

As the "chief guardians" of the Pacific, the British Commonwealth, the United States and Japan must co-operate, declared Prince Tokumitsu, eminent Japanese statesman, speaking before the Canadian Club at Toronto.

"Certainly I do not ignore any other Pacific country," he proceeded, "but it can not be denied that the three nations I have mentioned are in reality the chief guardians of that region. It is pleasant to think there are the nations whose co-operation at the recent conference in London, England, brought about the result which it did."

"I have never been so strongly impressed with the fact," he said, "that all the nations of the civilized world are dependent on one another, and that no country in the world can do anything without affecting the interests of the other countries."

Recipes For This Week

(By Betty Barclay)

CHEESE BISCUITS

- 2 cups special cake flour, sifted.
- 2 1/2 teaspoons baking powder.
- 1/4 teaspoon salt.
- 1 tablespoon butter or other shortening.

- 1/4 cup grated cheese.
- 1/4 cup milk and water, equal parts.

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening and cheese. Add liquid gradually until soft dough is formed. Roll 1/4 inch thick on slightly floured board. Cut with flour biscuit cutter. Bake in hot oven (450 degrees Fahrenheit) 15 minutes. Make 12 biscuits.

COFFEE CARNIVAL

- 4 tablespoons cooking tapioca.
- 1/4 teaspoon salt.
- 1/2 cup seedless raisins.
- 2 cups decaffeinated coffee in infusion.
- 1/2 cup sugar.
- 1 teaspoon vanilla.
- 1 cup cream, whipped.

Add tapioca, salt, and raisins to coffee and cook in double boiler 15 minutes, or until tapioca is clear, stirring frequently. Add sugar. Chill. Add vanilla; fold in cream. Serve in sherbet glasses. Serves 6.

Proper Equipment For Planes

At a meeting of the Air Pilots, Engineers and Navigators' Association at Vancouver, a suggestion was made that steps should be taken by the association to ensure that planes operating on the fringes of civilization should be compelled to carry proper equipment. Employment of a short wave receiving and transmitting radio set was suggested and a committee was appointed to take any action deemed suitable and submit a report to the association.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Sunday, 11 a.m. Holiness Meeting 2 p.m. Directory Class for the young people. 2.30 p.m. Company Meeting. 7 p.m. Salvation Meeting
Officers in charge: Wm. Slous, Capt., and J. Wiseman, Lieut.

Grab Boxes at Knowles Novelty Store, price 25c. They will surprise you.

Personal and Local

Prize-winners at the K. of P. whist drive and dance on Saturday were Mrs. Wm. Cousins, Mrs. R. Gillies, B. Garrett, R. Anderson. The aggregate prizes for November were won by Mrs. Smith and Mrs. Garrett. Another series will commence Saturday, and the aggregate prizes will be two 15 lb. turkeys.

T. Elgar Roberts gave a recital to the A.Y.P.A. at their regular meeting last Friday, which is very highly spoken of by all who heard it. Mr. Roberts is director of the reorganized glee club, and his service in this work is highly appreciated and is a decided asset to the town. St. Alban's church is fortunate in securing his services as choir director, which will be a great aid in singing the various beautiful musical portions of the services.

At the tennis club dance, Willie Balloch was presented with the McGillivray cup held last year by J. A. McLeod. Dr. Borden made the presentation, congratulating the recipient on his achievements during the season.

Those from Coleman who took part in the violin and pianoforte recital by the pupils of Miss Madeline Chardon and W. H. Moser were Douglas Moores, who played the violin selection "On the Ice," and Freda Antrobus, who played the pianoforte selection "Skating." Pupils from Pincher Creek and the Pass towns west to Fernie took part, and diplomas to the prize-winners of the year were awarded by Mrs. Gordon Egbert, of Edmonton.
